

NOKIA

Nokia smartphones on Android™

Smartphones your business can rely on

Pure. Secure. Up-to-date.

Our smartphone promise

With mobile security threats on the rise and a number of recent high-profile malware attacks, it's not surprising the issue is moving higher and higher up the list of many businesses' priorities.

So it's good to know that all our smartphones come with the same promise:

Pure

100% Android OS, with no bloatware consuming your memory or battery-life

Secure

Monthly security patches on all our smartphones

Up-to-date

All our smartphones come with the latest Android and Google innovations and are updated regularly

To find out more about smartphones your business can rely on, email info@hmdglobal.com or [visit our website](#).

Android Enterprise Recommended Programme

Choosing the right phone for your workforce is more than a purchase – it's a commitment, and requires a lot of thought.

Security, deployment and ease-of-use are just some of the factors that you need to consider. That's why we've worked in partnership with Google to make sure our smartphones deliver, and why after rigorous testing our latest devices have earned the Android Enterprise Recommended seal.

There's a lot to it, but the minimum set of requirements include:

Specs

Minimum 32GB storage and 2GB RAM

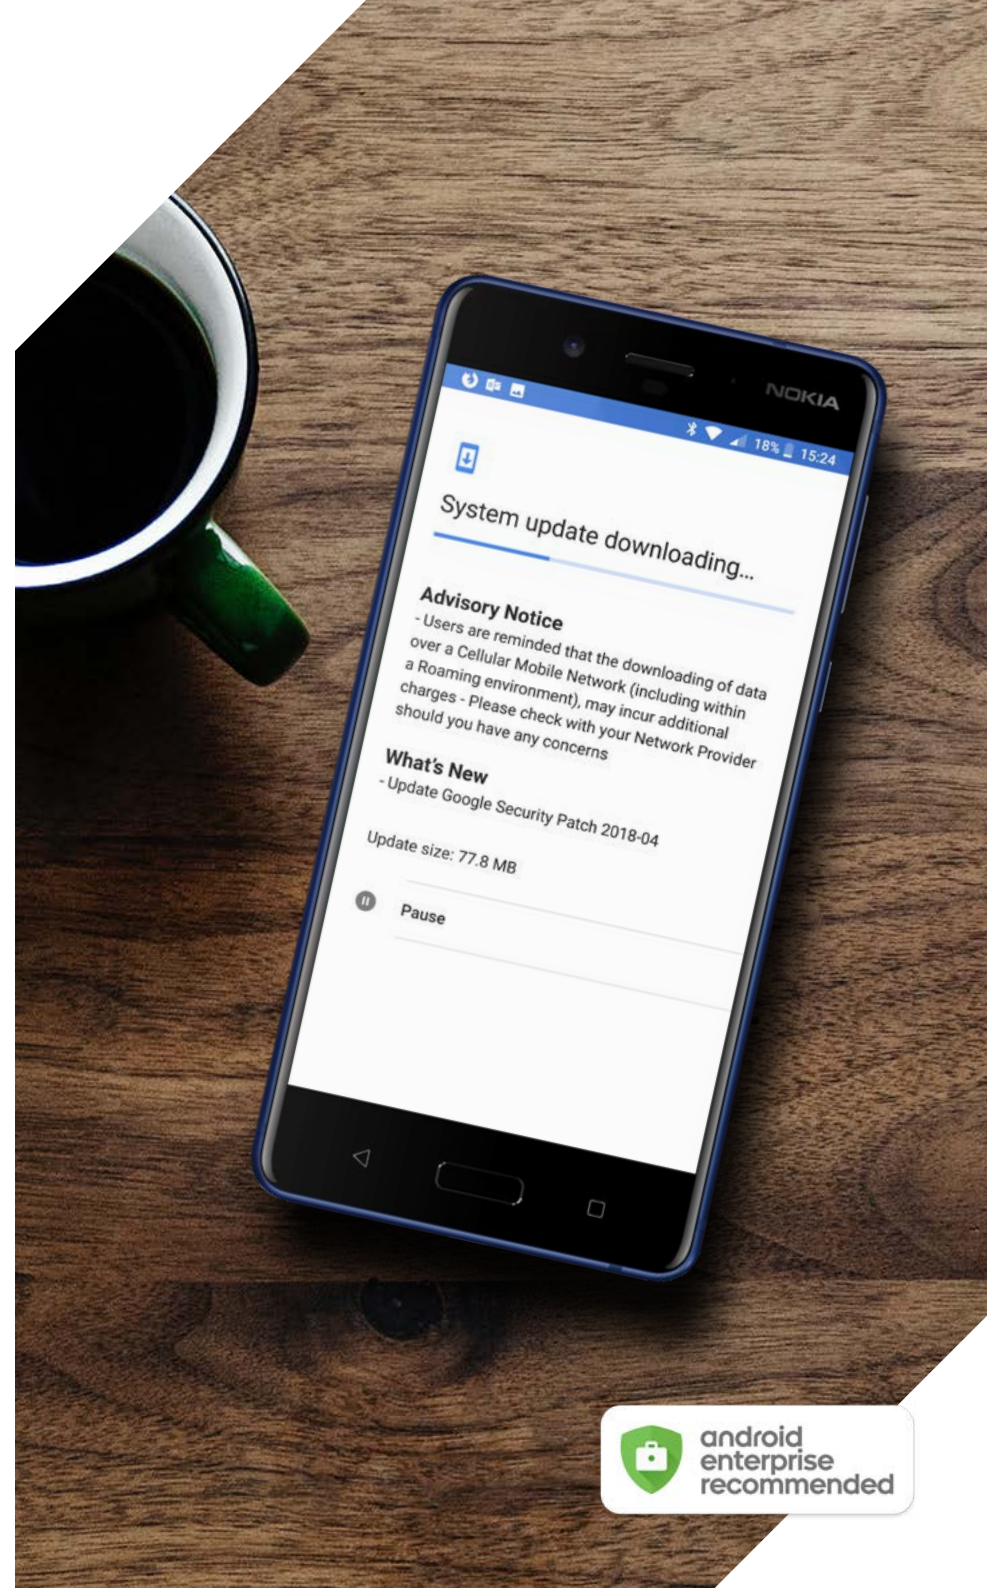

Enrolment

Supports bulk device deployment with Google zero-touch enrolment

Security

Regular security updates, delivered within 90 days from Google release

If you want to find out more, [visit our website](#).

Which Nokia smartphone is right for your business?

Nokia smartphones are designed to make your work more secure, efficient and productive. Explore the Nokia smartphone range today to find out which of our models is the best fit for your business and its people.

Introducing New Nokia 3.1

High-quality design, premium materials

The new Nokia 3.1 has been lovingly crafted with diamond-cut aluminium sides and a sculpted display for a subtle yet striking design. This, combined with the curved back and Corning® Gorilla® Glass, make for a stunning device that fits snugly in your hand.

Performance that won't let you down

Powered by an octa-core processor, the new Nokia 3.1 lets you unleash the true potential of all the latest business apps and functions. You can make quick and safe transactions with Google Pay™ using its secure NFC technology*. It's available in 2GB/16GB and 3GB/32GB. The new Nokia 3.1 3GB/32GB is part of the Android Enterprise Recommended programme.

Android One is Android at its best

Android One combines Google's smartly designed software with beautifully designed hardware from Nokia. With the latest version of Android Oreo™, plus 3 years of monthly security updates and 2 years of OS upgrades that come as standard with Nokia, your phone will stay as secure as possible.

*Only available in certain markets.

Introducing New Nokia 5.1

Premium craftsmanship and effortless style

The new Nokia 5.1 retains the beautiful aluminium metal unibody of its predecessor but sports an updated and refined design. Together with the sculpted Corning® Gorilla® Glass display and integrated fingerprint sensor, it's the extra attention to detail that makes it stand out.

Better performance

We've boosted the new Nokia 5.1's processor performance so you can be even more productive at work and stream data faster. It's available in 2GB/16GB and 3GB/32GB. The new Nokia 5.1 3GB/32GB is part of the Android Enterprise Recommended programme. The result is a lag-free, powerful device which makes the everyday extraordinary.

Android One is Android at its best

Android One combines Google's smartly designed software with beautifully designed hardware from Nokia. With the latest version of Android Oreo™, plus 3 years of monthly security updates and 2 years of OS upgrades that come as standard with Nokia, your phone will stay as secure as possible.

Introducing New Nokia 6.1

Handheld perfection your business can rely on

Strong, striking and smooth, the new Nokia 6.1 is cut from a single block of aluminium and features a sculpted 2.5D Corning® Gorilla® Glass display. Unlock your new Nokia 6.1 with a rear fingerprint sensor for ease-of-use and maximised front display area.

Effortless performance

The latest Qualcomm® Snapdragon™ 630 mobile platform with 4GB of RAM provides 60% more performance and all the power you need for smooth, lag-free use, while USB-C will fast-charge to 50% in only 30 minutes.

Android One is Android at its best

Android One brings a Google designed software experience to the new Nokia 6.1. Get everything you want and nothing you don't with a streamlined, easy to use interface and a curated set of pre-installed apps, and free unlimited photo storage with Google Photos¹. Regular security updates and 2 years of OS upgrades means the new Nokia 6.1 with Android One stays secure and features the latest Google innovations like being optimised for the Google Assistant.

Introducing Nokia 7 Plus

Beauty in strength

Machined from a solid block of aluminium with edges as thin as 2.75 mm, the Nokia 7 Plus is as strong as it is beautiful. The ceramic-feel coating gives it a great grip and a clean look.

See more, do more

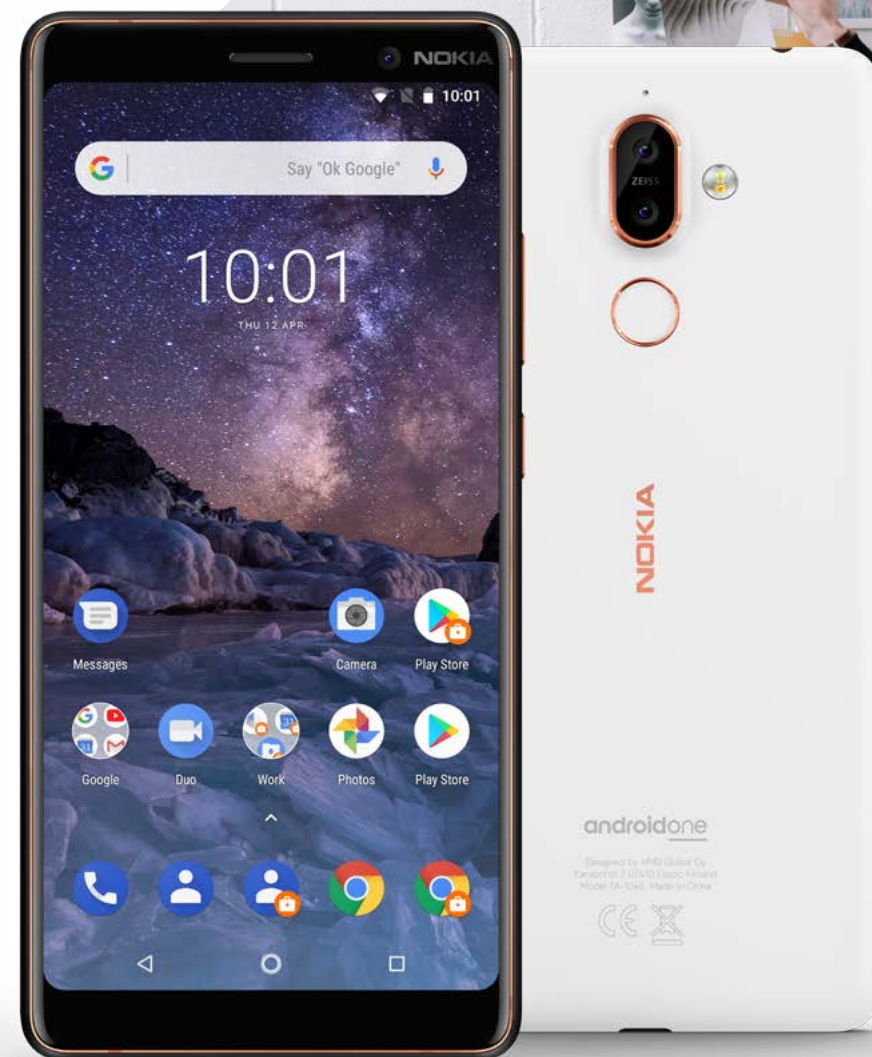

The 6" full-HD+ with 18:9 ratio is great for multi-tasking and video calling with Google Duo, letting you see more from one view. Split the screen and open two 1:1 windows with a single tap.

Performance that keeps you going

The Qualcomm® Snapdragon™ 660 mobile platform and 4GB of RAM provides all the power your workforce needs, and an outstanding 2-day battery life to keep you going.

Android One is Android at its best

Android One brings a Google designed software experience to the Nokia 7 Plus. Get everything you want and nothing you don't with a streamlined, easy to use interface and a curated set of pre-installed apps, and free unlimited photo storage with Google Photos¹. Regular security updates and 2 years of OS upgrades means the Nokia 7 Plus with Android One stays secure and features the latest Google innovations like being optimised for the Google Assistant.

Introducing Nokia 8

Flawless Design

Built with a next-generation antenna with no unsightly lines for a clean-cut appearance and class-leading performance. Your business will have peace of mind, with the protection of sculpted Corning® Gorilla® Glass 5, 2.5D Glass.

Cutting-edge performance

Nokia 8 is built with the Qualcomm® Snapdragon™ 835 Mobile Platform, engineered to deliver exceptionally long battery life.

Pure Android experience

Android in its purest form; a clean and easy to use interface and the best Google apps, so your workforce can tailor their phone to their liking. Nokia 8 comes with Android Oreo™, and we'll make sure you keep getting regular updates to help you stay on top of features and security.

Introducing Nokia 8 Sirocco

Strong and beautiful

To deliver the optimum fusion of strength and beauty, the Nokia 8 Sirocco's premium curved glass covers over 95% of the phone. Luxuriously weighted and perfectly balanced, it feels more secure in your hand thanks to the improved grip given by the dual diamond-polished stainless-steel frame.

Never live in slow motion again

Nokia 8 Sirocco is optimised and tuned to deliver effortless performance with its Qualcomm® Snapdragon™ 835 mobile processor and 6GB RAM. It's also the first Nokia Android smartphone to support Qi wireless charging.

Get the latest Google innovations

Android One brings a Google designed software experience to the Nokia 8 Sirocco. Get everything you want and nothing you don't with a streamlined, easy to use interface and a curated set of pre-installed apps, and free unlimited photo storage with Google Photos¹. Regular security updates and 2 years of OS upgrades means the Nokia 8 Sirocco with Android One stays secure and features the latest Google innovations like being optimised for the Google Assistant.

The smarter way to keep your business secure

Maximum flexibility

Our devices are built business-ready, whatever your business needs. Whether you're supplying your workforce with a phone for single use, giving out a number of devices, or asking them to use their own Android phone, we have a solution for your business.

Always up-to-date security

Security threats and malware evolve every day, so it's crucial that your smartphone is always secure and up-to-date. Thanks to monthly security patches for all Nokia smartphones, you'll always feel safe and protected.

Latest Android enterprise innovations for your business

All Nokia smartphones come with multi-layered Android platform security which is kept up-to-date with the latest Android innovations. Thanks to the regular system updates and upgrades, you won't have to worry about your Nokia smartphone becoming outdated anytime soon.

Enterprise Mobility Management Compatibility

Thanks to pure Android without legacy, proprietary APIs, Nokia smartphones are EMM-compatible. This means you will save time and money when enrolling Nokia smartphones onto your chosen EMM solution. All Nokia smartphones with Android Oreo™ also support Google zero-touch enrolment for a seamless setup and deployment of corporate-owned devices.

Smart and easy

The pure Android experience ensures every Nokia smartphone is dependable and simple to use, having eliminated bloatware that drains your battery and takes up valuable storage space. With an extensive selection of smartphones and accessories to choose from, there's something for everyone.
