<sup>1</sup>5G coverage is limited and might not be supported by your network service provider. Actual speed depends on network and other factors.

<sup>2</sup>According to internal testing of HMD Global, in live 4G networks a compatible phone has an average data transfer speed of approximately 60 Mbps. In live 5G networks, Nokia X10 can reach data transfer speeds of up to 1.2 Gbps.

<sup>3</sup>Based on real life usage test by HMD Global. See more info at [www.nokia.com/phones/nokia-x-10](http://www.nokia.com/phones/nokia-x-10).

<sup>4</sup>All specifications, features and other product information provided are subject to change without notice.

<sup>5</sup>Pre-installed system software and apps use a significant part of memory space.

<sup>6</sup>Battery has limited recharge cycles and battery capacity reduces over time. Eventually the battery may need to be replaced.

<sup>7</sup>Google Assistant is not available in certain languages and countries. Where not available, Google Assistant is replaced by Google Search. Check availability at [https://support.google.com/assistant/HMD\\_Global\\_Oy](https://support.google.com/assistant/HMD_Global_Oy) is the exclusive licensee of the Nokia brand for phones & tablets. ## Work and unwind at 5G warp speed

5G can power up your business, letting you do more, quicker. Video conference, send files, download big presentations, and make connections – up to 20X faster<sup>2</sup>. And when productivity's up, so is your down time. Win, win.

## Immerse yourself in more than work

The Full HD+ screen is perfect for working on the go, video calling, presenting pitches or getting totally and utterly lost in an epic movie at the end of an epic day.

## Share your work with the world

Our latest 48MP quad camera with ZEISS Optics combined with a full suite of editing and grading tools, means you've got everything you need to create standard-raising photos and videos. And with 5G you can share the inspiration instantly. Where art meets productivity.

## Beautifully reliable

With two colourways inspired by the Scandinavian landscape, its robust enough to take every day knocks, and looks great doing it.

## Stays cool under pressure

Our advanced cooling system means your phone stays cool even when you're up against it. And with a battery life of up to two days<sup>3</sup>, it's got a work ethic as strong as yours.

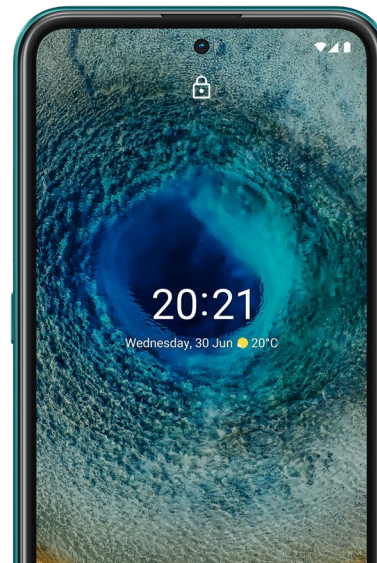

## Where work meets the weekend

Focus Mode lets you work without interruptions, and Bedtime mode helps you unwind. You know that tomorrow starts today.

## Security that gets safer and safer

With security updates every month for up to 3 years, all your biggest and most important files, videos, photos and data are in the safest of hands.

trust it

## The latest Android, with up to 3 years of upgrades

Android™ 11 brings a host of innovative features to your phone, like being able to see, respond to and control your conversations across multiple messaging apps, all in the same spot. So, no matter how in-demand you get, you'll never miss a thing. It's pretty obvious, but really useful.

And with software that constantly updates, you'll be ahead of the competition and enjoying new features, for years to come.

keep it

## Get ready for series-defying performance

Life or device, it's all about the performance. And the Qualcomm® Snapdragon™ 480 5G mobile platform means you're in for some seriously fast speeds. Multitask your apps, catch up with the latest news, and enjoy your favourite shows all at the same time.
