IP Communications Hosted Voice Foundation

Future-proof your business with our
new Foundation licence

Built for SMBs with a range of telephony requirements, Hosted Voice Foundation is a basic hosted voice licence with the ability to add simple telephony features making this the ideal choice for verticals such as Hospitality and Education.

We understand that businesses not only need a highly robust and secure telephony and collaboration solution, but they need the right product tailored to the individual needs of their staff, giving them an efficient and cost-effective service.

Hosted Voice Foundation is run over an enterprise-grade platform powered by BT, offering an entry level solution that allows you to build a hybrid estate of Mobile and Foundation licences, enabling different features for different users, plus scaling up and down is easy, meaning as your business needs change, so can your telephony!
