IP Communications Cisco Webex

Do exceptional work with this powerful team collaboration tool

The modern workplace is changing fast. And you need to adapt to keep up. You need the ability to work with your colleagues from anywhere, on any device, with smart collaboration tools. At the same time, you want to know your information is safe and secure.

And that's why we've added Cisco Webex for Broadworks to our solution. Together, they're the perfect way to embrace your digital future.

Game-changing features

Cisco Webex for Broadworks is your secure place for connecting and getting things done. Call, message and meet all in one app. It's an easy-to-use and powerful collaboration solution that keeps people and teamwork connected anytime, anywhere, on any device.

Cisco Webex for Broadworks brings together calling, messaging, meeting, file sharing, whiteboarding and more. It provides the functionality, security and quality you require to migrate your mission-critical communications to the cloud so you can streamline teamwork and produce great results, faster than ever.

Benefits

Experience the power of Cisco Webex for Broadworks integrated with cloud calling you know and trust.

Call, message and meet – all in a single app – with your content and information in one place.

Drive productivity in your teams with an intuitive, feature-rich collaboration tool.

Keep work moving in meeting rooms with fully integrated Cisco Webex devices.

Keep your important information safe and secure with advanced security and compliance.

A fully integrated experience

Cisco Webex for Broadworks offers a fully integrated voice and collaboration experience. It brings together cloud calling from a provider you trust and already do business with and the advanced messaging and meeting features of Cisco Webex for Broadworks – all in one elegant app. That enables you to streamline teamwork and produce great results, faster than ever.

The power of Cisco Webex for Broadworks

With Cisco Webex for Broadworks, you can create secure virtual work spaces for everything, from completing short-term projects to solving longer-term business opportunities. Simplify day-to-day interactions with messaging and file sharing that can be enhanced with third-party app integrations for seamless workflows. Give everyone a voice, with both synchronous and asynchronous communications, and increase engagement.

Start calls instantly, and host high-quality video meetings with screen sharing at the touch of a button. Express your ideas on digital whiteboards that colleagues can access and add to at any time. When teamwork flows into meeting rooms, bring the Cisco Webex experience with you. Just connect the app to one of our compatible devices to start meetings wirelessly, share your screen, capture whiteboard drawings and more. That's Cisco Webex for Broadworks moving all your work forward. Are you in?

How it works: Key features and components

Complete calling: Cisco Webex for Broadworks is integrated with our cloud calling and PSTN services, and it provides flexibility, reliability and security. Publish one business phone number, and make and receive calls from your device of choice.

Messaging to keep work moving: Bring everyone together easily and quickly in Cisco Webex for Broadworks. Enable everyone to see and share all the information they need. Send messages, share files, and create or edit whiteboards securely, both inside and outside your company. Everything is always in one place.

Meetings built for teams: Use high-quality video meetings with screen sharing and annotation from any device. Other cool features, such as breakout rooms, gestures and reactions give everyone a voice. And improve your experience with virtual backgrounds, noise removal and speech enhancements too.

Integrate with other tools for an uninterrupted workflow: Cisco Webex for Broadworks integrates with solutions from vendors like Microsoft, Google, Salesforce and Apple. Bring content into Cisco Webex spaces from these apps. Access business information and alerts from other systems. Avoid switching in and out of different apps to get information.

Enterprise-grade security: We keep your users and sensitive information safe. Your messages, files and whiteboard drawings are all protected with end-to-end encryption.

IP Communications - Cisco Webex
