Connectivity Vodafone SOGEA

Future-proof your business with Vodafone SOGEA

We're working with Vodafone to give you more choice when it comes to future-proof, Single Order broadband solutions. For us, the choice to work with Vodafone was simple. As one of the world's top internet service providers, Vodafone understands that connectivity simply cannot be taken for granted, especially in today's digital world.

What is SOGEA?

- A data-only broadband solution that is provisioned on a single order, meaning no phone line is required
- Voice becomes an Over The Top (OTT) service like any other data service
- Based on the current FTTC technology, using a combination of copper and fibre technology, without requiring a traditional telephony connection
- Download speeds of up to 80Mbps for faster, more reliable broadband

Why Vodafone?

Award-winning global converged network keeping your customers connected

Vodafone have invested over £4.5 billion globally in their network, helping them to build a secure, future-proof solution

Future-ready solutions to support the future of voice

Single Order technologies are easier to fix, so if things do go wrong, we'll get you back on track faster than ever
