Introduction

Epic for business

We are all working in different ways now, with our jobs requiring more flexibility than ever. Businesses now need devices that enable workforces to perform a whole variety of tasks, wherever they are. Viewing and working on office documents, without being anywhere near the office, joining meetings from different continents and staying in touch with customers through a wide range of social media. With a new generation of young professionals entering the workplace, they don't expect the boundaries that previous employees experienced—they seek the freedom and flexibility that the latest devices can help to promote.

Introducing Galaxy S22 Enterprise Edition Series, the definitive phone for business, featuring all the tools, applications, security and support you need to get ahead. The Galaxy S22 Ultra comes with an embedded S Pen, a landmark addition for a S Series device. It also has a best-in-class screen and the fastest processor in Galaxy's history, ensuring nothing holds you back. Plus, with multiple camera lenses and AI technology, you can create professional level content to promote your business and reach new audiences. It's time to change the rules of a business phone with the Galaxy S22 Series.

Choose the Galaxy S22 Enterprise Edition that suits your business needs. Starting with the compact Galaxy S22. It exudes a premium design with pro-grade camera, 6.1" display and video enhancement features.

Get even more with the ultimate in performance and productivity. The Galaxy S22 Ultra features a larger 6.8" display and embedded S Pen. It also comes with a 40MP front camera and a Dual Telephoto lens system, providing 10x and 3x optical zoom on its main camera. Plus, gain more space to work with up to 12GB RAM and 512GB storage.

Category pillars

Built for progress

When you equip your employees with high-powered tools and resources, you help them to work more effectively. They can manage and lead projects efficiently. They can work on their own terms, whenever and wherever they want to work. They can be more productive, focus on their goals and drive their careers.

But it doesn't just benefit your employees. When you invest in the best technology, you can help your people improve collaboration. That helps to remove siloes and unnecessary processes and replace them with increased productivity, enhanced creativity and the kind of forward-thinking ideas that help to drive business growth.

It's time to invest in your employees.
It's time to invest in your business.
It's time for the Galaxy S22 Enterprise Edition Series.

Enterprise Edition—Large enterprise

Work from your phone whenever,
wherever with Enterprise Edition.

Getting multiple devices logged onto your enterprise mobility management (EMM) platform is simple with Knox Mobile Enrolment—part of Knox Suite. The all-in-one offering of additional Knox licenses comes as part of Enterprise Edition to secure, deploy and manage your mobile fleet. You get everything you need to make your IT team's life simple and your employees as productive as they can be. You can keep your devices protected from mobile threats with up to 5 years Security and Maintenance Releases. And with Extended Product Lifecycle¹, you can ensure consistency across your fleet of devices. Enterprise Edition also features a QuickStart build service for those that want to take advantage of the Knox Suite features.

1. Devices will remain on sale for a defined period of time after first global market release. The defined period will differ according to each specific device. Subject to change without notice.

Enterprise Edition—Small and mid-size enterprise

Work from your phone whenever,
wherever with Enterprise Edition.

Ensuring your staff have secure mobile technology, updated with the latest apps and software, can be easier said than done—especially if you don't have a dedicated IT resource. That's where Enterprise Edition can help. The all-in-one offering of additional Knox licenses helps you quickly and easily secure, deploy and manage your mobile fleet. You get everything you need to make life simple for whoever manages your IT and mobile devices. And your employees get the mobile tools that help them work productively. You can keep your devices protected from mobile threats with up to 5 Year Security and Maintenance Releases. And with Extended Product Lifecycle¹, you can ensure consistency across your fleet of devices. Enterprise Edition also features a QuickStart build service for those that want to take advantage of the Knox Suite features.

1. Devices will remain on sale for a defined period of time after first global market release. The defined period will differ according to each specific device. Subject to change without notice.

Advanced security from the chip up

Stay protected with a super-secure business phone. Samsung Knox defence-grade security is built from the chip up with all hardware protected to ensure your Galaxy S22 device and all your sensitive data remains safe.

The new Privacy Dashboard allows you to easily see what apps have permissions and to update quickly. You can also pinpoint which apps use your mic or camera with a new status bar indicator. Plus, the Galaxy S22 includes the Secure Folder feature with dedicated memory for private files and a smart anti-tracking system that keeps you and your employees protected online.

Partnerships for success

Enjoy seamless connectivity and productivity with leading industry tech partnerships including Microsoft and Google¹.

With Google you can video call your colleagues and look at the same documents together from your Galaxy S22 device. You're able to share your favourite apps too and use your tablet as a whiteboard for collaborating remotely whilst still being on your Galaxy S22 and connected to your team—enabling seamless collaboration and communication for your teams.

1. Separate licenses may be required from Microsoft and Google.

Support and Advice

All your devices configured quickly and simply.

Our mobility experts can offer advice and provide ongoing support on your Operating System, Knox, third party EMM and hardware, ensuring you get the best return on investment from your technology. We also have a range of support options to suit your needs, such as doorstep repair, next business day replacement¹, courier collect and return service, same day store walk-in or our bulk repair service.²

Samsung Capital

Gain access to the technology you want, today. Samsung offer flexible finance solutions, tailored to meet your needs, whatever size of business.

With Samsung Capital, you can access the latest technology without the big upfront cost, freeing up your valuable capital for revenue generating activities. Furthermore, because you don't have the commitment of ownership, you don't have to worry about asset depreciation, disposal or costly upgrades.

1. Doorstep exchange with Samsung gold stock.
2. All requests must be placed before 3:30pm and confirmation of MDM removal must be confirmed before proceeding with repair/swap.

The background features a complex, abstract pattern of overlapping, semi-transparent geometric shapes in various colors including blue, purple, pink, and teal. These shapes are arranged in a way that creates a sense of depth and movement. A large, white, stylized 'S' logo is prominently displayed on the right side of the image, partially overlapping the colorful patterns. The overall aesthetic is modern and tech-oriented.

Galaxy S22 Series features

Epic in everyway

Make every job epic. The Galaxy S22 Ultra has an unrivalled display matched with the ultimate HDR performance for an uninterrupted workspace.

Its 6.8" Dynamic AMOLED 2X display, QHD+ resolution and adaptive 120Hz refresh rate ensures you're experiencing the clearest and sharpest picture to show your ideas off at their best. Built for productivity on the go, the Galaxy S22 Ultra has a strong Armour Aluminium body and Gorilla Glass Victus+ on both front and back, resulting in the toughest Galaxy ever produced. Plus, with IP68 rating, you can rest easy knowing your device will be up to the challenge, whatever the conditions.

Built to create

Make promoting your business second nature. The Galaxy S22 has the advanced features to make it happen.

The latest neural processing unit and deep learning AI enables brighter, clearer images with less noise—even in low light. With the Galaxy S22 no shot is out of reach thanks to 3x optical zoom lens, whilst the Galaxy S22 Ultra features two independent optical telephoto lenses. This allows for 4x clearer and more vivid images by merging uncompressed RGB Raw data shots automatically. And, when you're ready to share your content on your business social channels, the Galaxy S22 automatically selects the best settings for your chosen platform—or when simply sharing internally with colleagues.

Go wherever you need to

The Galaxy S22 series is made for the anywhere workday.

Tap into hyperfast 5G connectivity, work on documents and share them quicker—it's your mobile office. The Galaxy S22 includes an all-in-one wallet app to make commuter life even easier with payment cards, ID, Vaccine Pass, memberships and digital keys for your car, office, or home.

Performance and Productivity

Easily keep up with today's fast-paced world of business. With The Galaxy S22 series, the only thing holding you back is how fast you can think.

The devices come with Galaxy's first 4nm processor Exynos 2200, making it our fastest Galaxy ever. And, for the first time, the Galaxy S22 Ultra features an embedded S Pen¹ to capture inspiration on the move. The writing-to-text feature in your office apps intelligently grabs image files to translate to text and syncs notes across Galaxy devices instantly, so you can gather your thoughts whenever. The S Pen also has ultra-low latency—combined with the 120Hz display—giving you the same perfect precision and responsiveness as you'd expect from a real pen while maintaining the most efficient power consumption.

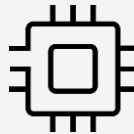

1. S Pen only on the Galaxy S22 Ultra device.

Product specifications—S22

Display:

- 6.1"
- 2400 x 1080 FHD+ (425ppi)
- Dynamic AMOLED 2X (24-120Hz)

Processor:

- Exynos 2200, (4nm)

Special interface:

- Samsung DeX for PC / TV / Monitor
- Samsung DeX Wireless Connection for TV

Design:

- 70.6 x 146 x 7.6 mm
- IP68
- 167g (Sub6) 168g (mmWave)

Memory:

- 8GB +128/256GB

Additional Features:

- Ultrasonic Fingerprint, Secure Processor
- Samsung Pay (NFC)

Battery:

- 3,590mAh
- (Typical 3,700mAh)¹
- Wireless PowerShare
- Super Fast Charging
- Fast Wireless Charging

Audio:

- Stereo Speakers
- Dolby Atmos

Camera:

- Rear Ultra-wide: 12MP F2.2 (FF), FOV 120° 1/2.55" 1.4µm
- Rear Wide: 50MP F1.8 (Dual Pixel AF), OIS, FOV 85°, 1/1.56" 1.0µm with live pixel
- Rear Tele 1: 10MP F2.4 (3x, PD AF), OIS, FOV 36°, 1/3.94" 1.0µm²
- Front Wide: 10MP F2.2 (Dual Pixel, AF), FOV 80°, 1/3.24" 1.22µm

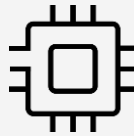

1. Based on average battery life under typical usage conditions. Actual battery life depends on factors such as network, features selected, frequency of calls, and voice, data, and other application usage patterns. 2. Pixels of the Telephoto lens in the S22 Ultra are smaller than the S21 Ultra (1.22/1.22µm), but it's the next level of sensor to maintain the same level of quality with AI technology.
